Massage

Experience a relaxing full body massage using traditional techniques here at Palm Paradise in a palm frond hut in the quiet shade of the coconut palms. Our beautiful natural surroundings with just the sound of the birds and the waves complement the experience, a place where people rest and relax.

Your massage by a local professional will promote rest and relaxation of the mind and body. We use only natural and locally supplied herbs and ingredients in all our treatments. For men we offer a male masseur and for women, a female masseur.
